

Final Report

Participant Name& Country: Shrijana Timilsina, Nepal

1. General Situation of Your Village

1) Name of your Village : Phulbari

2) Outline

Population	Ratio of farmhouse	GDP per capita	Main source of Income
3862 (census 2011)	70%	1000 \$	Agriculture
Main Crops	Electricity Distribution Rate	Water and sewage Distribution Rate	Road pavement Rate
Rice, maize, lentil Vegetable	98%	70%	60 %

2. Introduction of Your Village

Phulbari is a small village located in Chitwan district in south west of Bharatpur metropolitan city in ward number 15. It is one of the least populous wards of Bharatpur metropolitan city. It is located at a distance of 7 km from Bharatpur metropolitan city. The major occupation of the villagers is agriculture followed by foreign employment and services. Majority of farmers are subsistence type and produce rice, maize, lentil and vegetables. Brahmin and Chhetri is the dominant caste of the village. The village has poor public transportation facilities. Due to the lack of wide, paved roads, the roads are muddy and slippery in the summer. Even the paved roads have numerous pot holes making the travel difficult.

3. Actual Condition of Your Village

1) Consciousness level of the villagers

** Cooperation, Diligence, Self-help, Community mind, etc.*

The cooperation between the people is good. People celebrate festivals and other cultural programs together. People are engaged in groups and cooperatives. Mothers groups, youths

groups are also present but majority of them are engaged in local money mobilization. People are hard working but due to the lack of higher education and knowledge about new technologies their efficiency is low and the per capita labor productivity and land productivity is low. The spirits of self help and community mind is growing.

2) Income of People

- What is the main source of income? (Agriculture, Fisheries, Livestock Industries, etc.)

Around seventy percent of the villagers are engaged in agriculture. Agriculture is the major source of income followed by remittance and services.

3) Level of Public Sanitation& Public Amenities

- How about the actual living condition of residential environment?
(Kitchen, drinking water, sanitation, public amenities, etc.)

Majority of houses are semi concrete type. Due to the lack of safe drinking water supply majority of farmers dependent on underground water. Sanitation is poor; people have traditional type of toilets. Community buildings are also limited. Health and education is limited. Majority to people travel to Bharatpur for good health services and better education.

4. Action Plan for your Village
