

Final Report

Participant Name & Country : Sujan Dhungel, Nepal

1. General Situation of Your Village

1) Name of your Village : Katunje

2) Outline

Population	Ratio of farmhouse	GDP per capita	Main source of Income
19497	54%	1250 \$	Agriculture
Main Crops	Electricity Distribution Rate	Water and sewage Distribution Rate	Road pavement Rate
Paddy, Wheat, mustard, Vegetables	85%	76%	60%

2. Introduction of Your Village

Katunje lies in Suryabinayak Municipality, Bhaktapur District of Bagmati Province Nepal. According to the 2011 Nepal census, Katunje had a population of 19497 with 4692 households. The total area of municipality is 42.45 sq km. It lies at the altitude of 1372 to 2025m from sea level.

Most of the people are engaged in farming and livestock rearing. This municipality is connected with rural roads to different rural areas and facilitated with electricity and drinking water. There are some schools, temples and protected areas in my village.

3. Actual Condition of Your Village

1) Consciousness level of the villagers

** Cooperation, Diligence, Self-help, Community mind, etc.*

The education status of my village is improving . Around 70% of the people are literate. There is the facility of government as well as public schools in my village as well as the

vicinity villages. Farmers are organized in groups and cooperatives for agriculture extension services. However, they aren't organized for collective production and marketing.

2) Income of People

- What is the main source of income? (Agriculture, Fisheries, Livestock Industries, etc.)

The main source of income of my village is agriculture followed by services in government as well as private institutions.

3) Level of Public Sanitation & Public Amenities

- How about the actual living condition of residential environment?
(Kitchen, drinking water, sanitation, public amenities, etc.)

The living condition of the residential environment is moderate. Around 60% of the people have access to drinking water and electricity. However, the road facilities and facilities of internet are relatively poor. The roads are not blacktopped and there is no facility of public vehicles in the rural areas of the village. People are not much aware of the health, sanitation issues. Toilets are not easily available in public places. However, people have toilets in their residence. There are fewer number of health posts and hospitals so people have to run to nearby urban areas for their treatments.

4. Action Plan for your Village

1) What are the main problems that disturb the development of your Villages?

- The main problem that disturb the development of my village is the lack of proper infrastructures related to agricultural production, processing and marketing. also, the unreliable market of the agricultural products has demotivated farmers in producing commodities. Also, the lack of transportation facilities and facilities of hospitals, education institutions has hindered my village development.

2) What are the solutions of main problems for your village's bright future?

- Strong social bonding among the people
- Construction of rural infrastructure facilities as road, market, irrigation infrastructure, clod storages and processing facilities
- Training and capacity building of the farmers and other entrepreneurs to create employment opportunities in the village
- Strengthening communication system and enhance access to internet and information technology

3) How would you utilize the Korean Saemaul Undong to solve the main problems of your village?

- Uniting farmers to groups and cooperatives
- Preparing local leadership
- Encouraging the local government to allocate budget for rural infrastructure development
- Enhancing farmers access to market

4) Please write your action plan by benchmarking the success factors of Saemaul Undong to solve the main problems of your village.

- Sample
